

Eaves Water System will collect the water from your roof and protect your home or business. The unique registered design channels water around the curved front edge and into the 8 mm wide slot, excluding leaves, pests and debris from your guttering.

Prevent flooding from blockages, avoid dangerous trips up the ladder and harvest clean clear water. Eaves Water System is a premium Australian made gutter solution with a 10 year warranty adding value to your home and saving you time and money. In fire prone areas clean gutters are safe gutters.

Protect Your Home:

Even in torrential rain, hail storms, strong winds and heavy snowfalls, Eaves Water System will collect all the water from your roof and protect your home.

Harvest Your Water:

Stop contaminants from entering your water supply by excluding rotting vegetation, pests and birds. Your family will enjoy clean, clear, safe water.

Made in Australia:

Eaves Water System is manufactured locally using **Colorbond** and UV stabilized plastic components. Eaves will collect the water from your roof and protect your home or business.

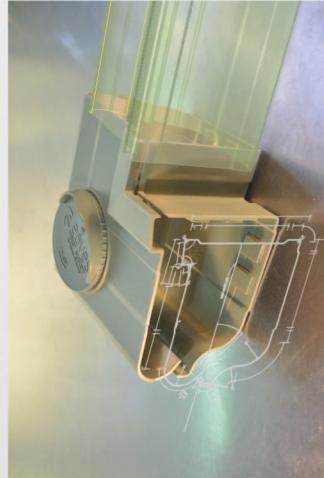

Avoid Danger:

No more dangerous trips up the ladder to clean your gutters. They remain clean and clear of obstructions while you stay safe on the ground.

Prevent Flooding:

No water damage from overflowing, flooded gutters. Debris cannot build up and cause blockages. The Eaves Water System fully enclosed metal profile ensures the rain will always flow safely away from your home.

Reduce Fire Risk:

Include Eaves Water System in your fire plan. Your home will be safer with no leaves and debris to catch fire from flying embers.

Save Water, Save Time, Save Money:

Increase the value of your most valuable asset and eliminate ongoing maintenance costs. Strong, durable, long life total gutter solution manufactured using trusted **Colorbond** and ASA Plastic.

All Eaves Water System Products are covered by a 10 year manufacturers warranty and fitted to your home by fully trained, local installers.
